Scott,

Found error in the RI Report; this revised table corrects it.

Regards,

Gary Miller
EPA Remedial Project Manager

Subject: SJRWP RI Report Table 5-9 Correction

Hi Gary-

Integral has investigated the question you had about the TEQ statistics for sediment presented in Table 5-9 of the May, 2013 Final Remedial Investigation Report, and have found the table to be in error. The error resulted from the analyst incorrectly substituting the "total dioxins and furans" in the last line of the table, instead of the "TEQ_{DF}" concentrations; we thoroughly checked the other tables in the report and do not expect this sort of problem elsewhere.

The error has been corrected, and the corrected table is attached. The corrected table has been inserted into the PDF of the report posted on the wiki, and the single page with only this table has also been posted for the convenience of others.

I will send you this table in hardcopy tomorrow.

I apologize for any confusion caused by this error.

CERCLA Docket 06-03-10.

Jennifer
